The Guides to German Records Microfilmed at Alexandria, Va., constitute a series of finding aids to the National Archives and Records Service (NARS) microfilm publications of seized records of German central, regional, and local government agencies and of military commands and units, as well as of the Nazi Party, its component formations, affiliated associations, and supervised organizations. These records were created generally during the period 1920-45.

The guide series was initiated by the microfilming project of the Committee for the Study of War Documents of the American Historical Association (AHA) in cooperation with NARS and the Department of the Army. With the termination of AHA participation in July 1963, NARS assumed sole responsibility for the reproduction of records and the preparation of guides.

Guide No. 83, Records of the SS Economic and Administrative Office (SS Wirtschafts- und Verwaltungshauptamt--Deutsche Wirtschaftsbetriebe--WVHA/DWB) describes the records reproduced on 37 rolls of NARS Microfilm Publication T976 (rolls 1 through 37), which are part of National Archives Collection of Seized Enemy Records, 1941-, Record Group 242. These records cover various administrative functions of the SS which were placed under the control of the SS Administrative Office (SS Verwaltungshauptamt--SS VA) in 1929, when Heinrich Himmler was named Reichsfuehrer-SS (RFSS--Reich Leader of the SS). The office was located in Munich at that time. The SS-VA was directed by SS Oberfuehrer Schneider until February 1, 1934, at which time Oswald Pohl, who later held the title SS Obergruppenfuehrer und General der Waffen-SS, was named its chief. Pohl remained in charge of the SS-WVHA administration throughout the Nazi regime.

The Verwaltungsamts became a "Hauptamt" (Main Office) of the SS on April 20, 1939, known as SS Hauptamt Verwaltung und Wirtschaft/V- und W-Hauptamt (SS Main Administrative and

Economic Office), and had its headquarters in Berlin-Lichterfelde. This office, together with the SS-Hauptamt Haushalt und Bauten (SS Main Office for Budget and Buildings), became the SS Wirtschafts- und Verwaltungshauptamt/WVHA (SS Economic and Administrative Main Office) on February 1, 1942.

The SS Wirtschafts- und Verwaltungshauptamt was divided into five offices: Amtsgruppe A--Truppenverwaltung (Troop Administration, Finance, Law); Amtsgruppe B--Truppenwirtschaft (Troop Management, Supply, Battering, and Equipment); Amtsgruppe C--Bauwesen (Construction and Buildings); Amtsgruppe D--Fuehrung und Verwaltung der Konzentrationslager (KL--Concentration Camps); and Amtsgruppe W--Wirtschaftsunternehmungen (Economic Enterprises). Each Amtsgruppe was divided into Aemter (Departments) identified by Roman numerals, and each Amt was again divided into Abteilungen (Branches). Amtsgruppe W was divided into nine Aemter (bureaus): Amt W I--Deutsche Erd- und Steinwerke (Economic Office W I, Oil, Minerals, Mining, and Quarries); Amt W II--Steine und Erden (Ost) (Economic Office W II, Building Materials, Cement Factories, and Brickworks in the Eastern Occupied Territories); Amt W III--Ernaehrungsbetriebe (Economic Office W III, Food Processing Industry); Amt W IV--Deutsche Ausruestungswerke, Holzbearbeitungsbetriebe (Economic Office W IV, Equipment and Wood Processing Industries); Amt W V--Land-, Forst- und Fischereiwirtschaft (Economic Office W V, Agriculture, Forestry, and Fisheries); Amt W VI--Textil- und Lederverwertung (Economic Office VI, Textile and Leather Industries); Amt W VII--Buch und Bild (Economic Office W VII, Printing and Publishing); Amt W VIII--Sonderaufgaben - Kulturbauten (Economic Office W VIII, Special Tasks and Foundations, Improvement and Upkeep of German Monuments); and Stab W--Deutsche Wirtschaftsbetriebe G.m.b.H., Ostindustrie G.m.b.H., u.s.w. (Economic Office Staff W, German Economic Enterprises, Ltd., East Industry, Ltd., etc.).

The SS controlled and operated many industrial enterprises through the SS Wirtschafts- und Verwaltungshauptamt. The records described in this guide pertain to DWB enterprises and their business activities.

Many of these enterprises were either bought generally far below their full value or outright confiscated from their former Jewish owners. The Deutsche Wirtschaftsbetriebe G.m.b.H. was established on July 26, 1940, as a subsidiary company through which the other companies operated. Labor for the SS enterprises was supplied mainly by concentration camp inmates.

Other records of the SS Economic and Administrative Office are reproduced on NARS Microfilm Publication T580, rolls 313-324, Records of SS Wirtschafts- und Verwaltungshauptamt, Ordner Nos. 1-198, not inclusive (see appendix I), and Microfilm Publication M890, rolls 1-38, Records of the United States Nuernberg War Crimes Trials United States of America v. Oswald Pohl et al. (Case IV) (see appendix II). Related microfilmed SS records are reproduced on Microfilm Publication T175, rolls 1-678, Records of the Reich Leader of the SS and Chief of the German Police (Reichsfuehrer-SS und Chef der Deutschen Polizei), and are described in Guide Nos. 32, 33, 39, and 81. Records of the Waffen-SS are described in Guide Nos. 27, 75, and 79 as miscellaneous SS records, Einwandererzentralstelle, Waffen-SS, and SS-Oberabschnitte, reproduced on Microfilm Publication T354, rolls 1-799.

The INDEX to Guide No. 83 can be found immediately following the instructions for its use on page 52. It is an archival index to this descriptive finding aid only. The index terms were derived from the descriptive material and have been supplemented with references, cross-references, and explanatory subheadings by means of computer techniques.

The CONTENTS column contains the provenance and a general description of the content of the record item. The inclusive dates of the record item are given under the DATE column. The ITEM NO. is an artificial identification symbol assigned to the folder at German Military Document Section (GMDS) in Alexandria, Va.; where available, the original DWB filing number is given in the subject-matter German title (e.g., Ausgehende Rechnungen. 0003). The ROLL refers to the sequence of the film in Microfilm Publication T976, and the 1ST FRAME gives the frame number of the first page of the file item.

The original records were returned after filming to the Federal Republic of Germany and deposited at the Bundesarchiv in Koblenz. The master negatives of Microfilm Publication T976 have been deposited with the Publications Sales Branch, National Archives and Records Service (GSA), Washington, DC 20408, from which copies of specific rolls may be purchased. Reference copies may be consulted in the Microfilm Reading Room of the National Archives. For suggestions for citing microfilm, see page xxxi; for instructions for ordering microfilm, see page 83.

The original descriptions for microfilming were prepared by Anton Grassl, revised and described for this guide by George Wagner. The input data for the computer printed register and index was prepared by Johanna M. Wagner. The textual material was edited under the supervision of Shelby Bale, Chief of the NARS Editorial Branch. The computer-input scheme, a modification of the SPINDEX program, was devised by the undersigned.

APPENDIX II

Records of the United States Nuernberg War Crimes Trials
United States of America v. Oswald Pohl et al. (Case IV)
January 13, 1947-August 11, 1948, reproduced on NARS
Microfilm Publication M890 (rolls 1-38). They document
the trial of 18 leading officials of the WVHA on a
variety of crimes particularly those associated with the
administration and control of concentration camps and
the profits derived from the exploitation of concentration
camp labor.

The Transcripts of the Pohl Case include the
indictment of the following 18 persons:

Oswald Pohl: Obergruppenfuehrer in the SS and
General of the Waffen SS (Lieutenant General); Chief of
the WVHA and Chief of Amtsgruppe W of the WVHA.

August Frank: Obergruppenfuehrer in the SS and
General of the Waffen SS (Lieutenant General); Deputy
Chief of the WVHA and Chief of Amtsgruppe A of the WVHA.

Generalleutnant of the Waffen SS (Major General); Deputy
of the WVHA, Chief of Amtsgruppe B of the WVHA, and

Chief of Amtsgruppe A of the WVHA.

Chief of Amt I of Amtsgruppe A of the WVHA.

Hans Heinrich Baier: SS Oberfuehrer (Senior Colonel) and
Amtschef Stab (executive officer) of Amtsgruppe W of the WVHA.

Hans Hohberg: Amtschef Stab (executive officer) of
Amtsgruppe W of the WVHA.

Leo Volk: SS Hauptsturmfuehrer (Captain), personal adviser
(Persoenlicher Referent) on Pohl's staff, and head of legal
section (Leiter der Rechtsabteilung) in the executive office
of Amtsgruppe W of the WVHA.

Karl Mummenthey: SS Obersturmbannfuehrer (Lieutenant Colonel)
and Chief of Amt I of Amtsgruppe W of the WVHA.

Hans Bobermin: SS Obersturmbannfuehrer (Lieutenant Colonel)
and Chief of Amt II of Amtsgruppe W of the WVHA.

Horst Klein: SS Obersturmbannfuehrer (Lieutenant Colonel)
and Chief of Amt VIII of Amtsgruppe W of the WVHA.

The indictment consisted of four counts. Count one charged
participation in a common design or conspiracy to commit war

crimes or crimes against humanity. A tribunal ruling struck count one as a separate substantive offense because the tribunal felt it had no jurisdiction to try any defendant on such a count. As a consequence, the whole count was disregarded in the judgment and no defendant was found guilty. Count two was concerned with war crimes and count three with crimes against humanity. Fifteen defendants were found guilty, and three were acquitted on these two counts. Count four charged 17 defendants with membership in a criminal organization; 13 were found guilty, and 4 were acquitted.

The transcripts also contain the arraignment and plea of each defendant (all pleaded not guilty); opening and closing statements of defense and prosecution; and the judgment and sentences, which acquitted 3 of the 18 defendants (Klein, Scheide, and Vogt). Death sentences were imposed on Pohl and Eirenschmalz and life imprisonment on Frank, Georg Loerner, Sommer, and Mummenthey while varying prison terms were given to Fanslau, Hans Loerner, Tschentscher, Kiefer, Pook, Baier, Hohberg, Volk, and Bobermin.

The English-language transcript volumes are arranged numerically, 1-21; pagination is continuous, 1-8,201. The German-language transcript volumes are numbered 1a-21a and paginated 1-8,096. Letters at the top of each page indicate morning, afternoon, and evening sessions. The letter "C" designates commission hearings (to save court time and to avoid assembling hundreds of witnesses at Nuernberg, in most of the cases one or more commissions took testimony and received documentary evidence for consideration by the tribunals). Several pages are added to the transcript volumes and given number and letter designations. Some pages are not numbered, such as pages 702, 722, 724 (German) and pages 1100, 1361, 1447 (English). The tops or bottoms of a few pages are cut off and some are of poor legibility.

Of the documents assembled for possible prosecution use, 735 were chosen for presentation as evidence before the tribunal. These included orders, directives, affidavits, correspondence, excerpts from court cases, and blueprints of concentration camp installations. Several exhibits are of poor legibility.

The first item in the arrangement of the prosecution exhibits is usually a certificate listing the document number, a short description of the exhibit, and a statement on the location of the original document of the exhibit. Certificates often list wrong exhibit numbers for example:

Exhibit 216 is listed as exhibit 122
Exhibit 215 is listed as exhibit 97
Exhibit 214 is listed as exhibit 105
Exhibit 213 is listed as exhibit 79
Exhibit 217 is listed as exhibit 111.

Certificates are followed by documents, the actual prosecution exhibit (mostly photostats), and a few mimeographed articles with an occasional carbon of the original. In rare cases the exhibits are followed by translations or additional certificates. The following exhibits are original documents:

<u>Exhibit No.</u>	<u>Doc. No.</u>	<u>Exhibit No.</u>	<u>Doc. No.</u>
52	NO 2154	572	NO 4007
74	NO 2149	573	NO 4008
168	PS 1234	636	NO 4154
184	NO 407	674	NO 4572
516	NO 2368	678	NO 2382b
554	NO 1907	690	NO 4513

Certificates are not attached to several prosecution exhibits, including numbers 52, 74, and 492. Numbers 127, 96, and 380 were not assigned because the exhibits are identical with the documents of exhibits 104, 45, and 97, respectively.

Other than affidavits, defense exhibits consist of decrees, *Reichsgesetzblatt* excerpts (official German law gazette), charts, correspondence, and other items. There are no certificates for most of the 614 defense exhibits.

Translations in the prosecution document books are preceded by indexes listing document numbers, biased descriptions, and page numbers of the translation. They are generally listed in the order in which the prosecution exhibits were introduced into evidence before the tribunal. The defense document books are similarly arranged. Each book is preceded by an index listing document number, description, and page number for each exhibit. There are several unindexed supplements to numbered document books. Prosecution and defense briefs are arranged by name of defendant, as are the opening statements and final pleas.

The minute book, in one bound volume, is a summary of the transcripts. The official court file, in four bound volumes, includes the progress docket, the indictment, amended indictment, and the service thereof; appointments and applications for defense counsel and defense witnesses and prosecution comments thereto; defendants applications for documents; motions; uniform rules of procedures; and appendixes. The order and judgment books, in two bound volumes, represent the signed orders, judgments, and opinions of the tribunal as well as sentences and commitment papers. Clemency petitions of the defendants, in nine bound volumes, were directed to the military governor, the Judge Advocate General, the U.S. district court, and the U.S. Supreme Court. The finding aids summarize transcripts, exhibits, and the official court file.

SUGGESTIONS FOR CITING MICROFILM OF CAPTURED GERMAN AND RELATED RECORDS
IN THE NATIONAL ARCHIVES OF THE UNITED STATES

The National Archives and Records Service is frequently asked to provide recommendations regarding information to be included in footnotes or other references to records among its holdings. The following suggestions should serve this purpose and also help our staff in locating the records thus cited.

Records

Because of the great variety and complexity of some archival material, there are no convenient models that would be applicable to all records. The initial citation, however, might consist of those of the following elements applicable in each instance: item, file unit, or subseries, series title, originating office (and the administrative units of which that office is a part) name of collection or record group number and title, and depository. Except for placing the cited item first, there is no general agreement on the sequence of the remaining elements in the citation. Publishers, professional journals, and graduate faculties all prescribe their own style. Whatever sequence is adopted, however, should be used consistently throughout the same work. If in doubt, the researcher should confer with an archivist regarding elements that may be necessary to identify adequately specific records being cited.

Microfilm Publications

Citation to records reproduced in National Archives microfilm publications should provide, in general, the same information as suggested above, but with sufficient additional information to identify the particular microfilm publication as well as roll and frame numbers, if applicable.

Microfilm publications of foreign records seized during World War II involve such peculiarities of identification that largely individualized suggested systems of citation have been developed for them. The following examples suggest both a form of initial citation and of subsequent citations of the same document for each of five major microfilm projects reproducing captured German and related records; the form for the bibliography, which is not illustrated below, could be some appropriate modification of the initial citation, but should also include the National Archives record group title and number, and the title and number of the microfilm publication, e.g., National Archives Collection of World War II War Crimes Records (Nuernberg), Record Group 238, U.S. v. Otto Ohlendorf, et al., Microfilm Publication M895, 38 rolls; National Archives Collection of Foreign Records Seized 1941-, Record Group 242, Records of the Reich Ministry of Economics, Microfilm Publication T71, 148 rolls.

The serial number is the essential identification, whether the serial is of the interchangeable unlettered or H serials, or of the B,C,F,K,L, and M serials. The terms reel, container or roll are acceptable variations, with the last preferred by the National Archives. With the Tripartite Project microfilm, National Archives Microfilm Publication T120, it is imperative to distinguish between serial and roll numbers, and the Catalog of Files and Microfilm of the German Foreign Ministry Archives, 1920-1945, 4 vols., has as a supplement to each volume, a National Archives serial-roll conversion list. The Public Records Office in London uses the same serial and frame numbers, although not always the same roll numbers, and the microfilm publication symbols GFM 2-5 instead of T120, to identify the Tripartite Project microfilm. The other Whaddon Hall microfilm projects use the same number for serial and roll, as the SA (Saint Antony's College project) serial example, given above, indicates; the National Archives has substituted microfilm publication number for project symbols.

RG 242

The microfilm publications in this record group are for the most part listed by the place where the filming was done. Some of the papers may have been of private origin, but the fact of their seizure is not believed to divest their original owners of any literary property rights in them. Anyone, therefore, who publishes them in whole or in part without permission may be held liable for infringement of property rights.

I N D E X

This computer-printed index consists of index terms derived from the foregoing descriptive register of SS Wirtschafts- und Verwaltungshauptamt--Deutsche Wirtschaftsbetriebe--WVHA/DWB record items listed in this guide, rather than directly from the records. This index has two alphabetical and one chronological computer sorts and provides a main keyword and often additional sub-keyword(s) for each pertinent record item listed in the register, giving page number in the guide, and roll and frame number(s). Some of the index keywords and sub-keywords have been supplemented with a short explanation by means of computer techniques.

Main Keywords and Sub-Keywords

Main keywords, or headings, include names of individuals, geographical terms, countries, names of confiscated concerns or estates, and audits and finances of various SS enterprises.

Sub-keywords, referring to significant subjects under the main keyword, appear as subheadings (e.g., CONCENTRATION CAMPS, Dachau; REAL ESTATE, Gut "Sonnenschein" Autal; AUDITS, Stiftung Maria Schul).

Language

The keywords and sub-keywords used in the index are the generally accepted English equivalents of the German or German-translated words found in the records. Original titles of confiscated property are kept in the German language. When using the original German word or its abbreviations as the index term, the English equivalent or translation--and sometimes a short explanation of the term--is given (e.g., DWB--Deutsche Wirtschaftsbetriebe, Economic and Administrative Office; AHNENERBE DER SS--

Ancestral Heritage Society of the SS), or a cross-reference to an equivalent term(s) may appear (e.g., LEMBERG (See Lvov)). For purposes of automation, the diphthong is used instead of the umlaut (e.g., Völkischer Kunstverlag becomes Voelkischer Kunstverlag and Brünn becomes Bruenn (Brno)).

Geographical Terms

Geographical terms, transliterated from the Cyrillic alphabet into German spelling in the German records, in this index are transliterated into the English rendition found in the Columbia Lippincott Gazetteer of the World (1970). In most cases, references to German areas annexed to postwar Czechoslovakia and Poland are given the English equivalent place names (e.g., DANZIG (See Gdansk), KARLSBAD (See Carlsbad), BUTSCHOWITZ (See Bucovice), or NEUSTADTL (See also Nove Mesto)).

Dates

The years, months, and days under the DATES column are either (1) the span date of the entire record item listed under the corresponding CONTENTS column or (2) the single date of a one-event or one-document record item. For chronological computer sort, repetition of the single date is necessary. Where the specific month and day were undeterminable, 00-fillers have been used.

Item, Roll, and 1st Frame

Each item number represents the original record item filmed in NARS Microfilm Publication T976, rolls 1-37. In the 1ST FRAME column is the first frame number of the entire record item rather than the exact frame on which the indexed entry occurs. Once at the first frame, the researcher must proceed to the particular frame(s) containing the specific reference indicated by the index.
