INTRODUCTION

The Guides to German Records Microfilmed at Alexandria, VA, constitute a series of finding aids to the National Archives and Records Administration (NARA) microfilm publications of seized records of German central, regional, and local government agencies and of military commands and units, as well as of the Nazi Party, its component formations, affiliated associations, and supervised organizations. For the most part, these records were created during the period 1920-45.

The guide series was initiated as a microfilming project of the Committee for the Study of War Documents of the American Historical Association (AHA) in cooperation with the National Archives and the Department of the Army. With the termination of AHA participation in July 1963, the National Archives assumed sole responsibility for the reproduction of records and the preparation of guides.

Guide No. 96 is Part VII of Records of the Headquarters, German Army High Command (Oberkommando des Heeres--OKH) and describes records of the OKH Organizations Branch (Organisationsabteilung) and Army Personnel Office (Heerespersonalamt) reproduced on 143 rolls of NARA Microfilm Publication T78. Parts I-VI are described in Guides nos. 12, 29, 30, 82, 87, and 91.

Records of the Organizations Branch (item designator H1) are found on rolls 520-534 and 671. These consist of tables of organization and other documentation showing the breakdown of the German Army High Command, the Reich Defense Ministry, and subordinate staffs; charts and maps showing the organization and location of German Army corps and subordinate command headquarters; reports, directives and other documentation concerning military supplies and the transport of arms and equipment; combat readiness surveys and casualty statistics; and order of battle and war diaries concerning manpower, organizational, and materiel problems on all fronts. Most material covers the war years, 1939-45, but some records date as early as 1933. The single largest series, found on rolls 521 through 524, consists of photostatic copies of war diaries with monthly strength and casualty reports for German Army groups on all fronts, June 1944-April 1945. Other miscellaneous inclusions among Organizations Branch records are service regulations and special directives for German signal intelligence; tables comparing organization, personnel strength, and equipment of German and Allied infantry and armored divisions (October 1944) and quartermaster staffs (1942-44); intelligence charts from the Foreign Armies East showing the order of battle for the Soviet Red Army (winter 1942-fall 1944); reports on Anglo-American operations in France and Belgium (1944); and reports on German defenses (Margarethenstellung) in Hungary (December 1944-January 1945).

Records of the OKH Army Personnel Office (designated H6) are found on rolls 592-605, 664, 670-671, and 883-993. Major series include:

German Air Force general officers, 1940-44, alphabetical list (name and date of rank only), roll 592

Applicants for admission to various officer candidate and NCO schools, 1942-44, alphabetically arranged, rolls 603-604

German Army generals with dates of seniority, April 1945, alphabetical list (names of those implicated in the July 20, 1944, attempt to assassinate Hitler are crossed out), roll 670

German Army general staff officers, 1939-45, alphabetical card index, rolls 883-895

German commanders, army group to brigade, 1941-45, card index arranged by level of appointment, rolls 896-897

Infantry reconnaissance battalion commanders (active and reserve), 1939-45, two alphabetically arranged card files, rolls 898-899

Officers attached to Volksgrenadier Divisions, 1944-45, alphabetical card file, rolls 900-905

German infantry commanders, 1939-45, alphabetical card file, rolls 906-908

German infantry officers through rank of colonel, 1939-45, three alphabetical card files, rolls 909-925

Panzer (armored) troop officers, 1939-45, alphabetical card file, rolls 926-935

Panzer (armored) troop officers, 1939-45, card file arranged by rank from general down to 2d lieutenant, and thereunder alphabetically, rolls 936-940

Commanders of panzer-grenadier and motorcycle units, 1939-45, card file arranged by rank (major through general), and thereunder alphabetically, roll 941

Engineer and Volksgrenadier Engineer officers, 1939-45, alphabetical card files, rolls 942-944

Signal officers, 1939-45, alphabetical card file, roll 945

German officer casualty list (dead, killed, or missing in action), June 1941-1945, alphabetically arranged card file, rolls 949-987

German General Staff officers (including Waffen-SS), two volumes of undated lists, roll 988

German Army translators and interpreters, 1935-45, alphabetical card files, roll 989-992

German propaganda personnel, 1935-45, alphabetical card file, roll 993

Researchers will note some irregularities in alphabetization which derive from phonetic arrangement and transliteration of non-German names. In the personnel lists, where the connective name element "von" is part of the name, it follows the surname, i.e., "Debschnitz von through Zwick."

Additional records include fragmentary personnel lists; assignment and promotion lists for various German Army districts (Wehrkreis) and German Army, Navy, Air Force and Waffen-SS units; officers' evaluation reports; correspondence and reports concerning special promotions, performance appraisals, and recommendations for awards and decorations; miscellaneous promotion and replacement lists for active duty and reserve officers; officer and NCO training school evaluations;

correspondence concerning police investigations of German military personnel; and miscellaneous German Army publications.

The original records described here were returned to the Federal Republic of Germany and deposited at the Bundessarchiv-Abteilung Militaerarchiv in Freiburg/Breisgau. The master negatives of Publication T78 have been retained by the National Archives, and copies of specific rolls may be purchased from Publications Distribution (NECD), National Archives and Records Administration, Eighth and Pennsylvania Ave., NW, Room G-9, Washington, DC 20408. For instructions on ordering microfilm, follow the guidelines on page xxv.

The original descriptions for microfilming were prepared by George Wagner and revised for this publication by Amy Schmidt.

Records of the U.S. Army War Crimes Trials in Europe

War crimes trials records for Germany were also collected or generated by the U.S. 3d and 7th Armies initially, then by special war crimes sections of the Judge Advocate General (JAG), Europe. Because these sections sent reports and other materials to Washington, some of the same material is in RG 153, Records of the Office of the Judge Advocate General (Army), and has proven to be a useful source for filling in gaps discovered in the RG 338 records. While materials from RG 153 are frequently found in the microfilmed publications listed below, in each case the great bulk of the records filmed come from RG 338.

SUGGESTIONS FOR CITING MICROFILM OF CAPTURED GERMAN AND RELATED RECORDS IN THE NATIONAL ARCHIVES OF THE UNITED STATES

The National Archives and Records Administration (NARA) is frequently asked to provide recommendations regarding information to be included in footnotes and other references to records among its holdings. The following suggestions should serve this purpose and also help our staff in locating the records thus cited.

Records

Because of the great variety and complexity of some archival material, there are no convenient models that would be applicable to all records. The initial citation, however, might consist of those of the following elements applicable in each instance: item, file unit or subseries, series title, originating office (and the administrative units of which that office is a part), name of collection or record group number and title, and depository. Except for placing the cited item first, there is no general agreement on the sequence of the remaining elements in the citation. Publishers, professional journals, and graduate faculties all prescribe their own style. Whatever sequence is adopted, however, should be used consistently throughout the same work. If in doubt, the researcher should confer with an archivist regarding elements that may be necessary to identify adequately specific records being cited.

Microfilm Publications

Citation to records reproduced in National Archives microfilm publications should provide, in general, the same information as suggested above, but with sufficient additional information to identify the particular microfilm publication as well as roll and frame numbers, if applicable.

Microfilm publications of foreign records seized during World War II involve such peculiarities of identification that largely individualized suggested systems of citation have been developed for them. The following examples suggest both a form of initial citation and of subsequent citations of the same document for each of five major microfilm projects reproducing captured German and related records. The form for the bibliography, which is not illustrated below, could be some appropriate modification of the initial citation, but should also include the National Archives record group title and number, and the title and number of the microfilm publication, e.g., National Archives Collection of World War II War Crimes Records, Record Group 238, *U.S. v. Otto Ohlendorf et al*, Microfilm Publication M895, 38 rolls; National Archives Collection of Foreign Records Seized, Record Group 242, Records of the Reich Ministry of Economics, Microfilm Publication T71, 148 rolls.

The serial number is the essential identification, whether the serial is of the interchangeable unlettered or H serials, or of the B,C,F,K,L, and M serials. The terms reel, container, or roll are acceptable variations, with the last preferred by the National Archives. With the Tripartite Project microfilm, National Archives Microfilm Publication T120, it is imperative to distinguish between serial and roll numbers, and the *Catalog of Files and Microfilm of the German Foreign Ministry Archives, 1920-1945*, 4 vols., has as a supplement to each volume, a National Archives serial-roll conversion list. The Public Record Office in London uses the same serial and frame numbers, although not always the same roll numbers, and the microfilm publication symbols GFM 2-5 instead of T120, to identify the Tripartite Project microfilm. The other Whaddon Hall microfilm projects use the same number for serial and roll, as the SA (Saint Antony's College project) serial example, given above, indicates; the National Archives has substituted microfilm publication number for project symbols.
