GUIDES TO GERMAN RECORDS MICROFILMED AT ALEXANDRIA, VA.

This is part of a series of guides prepared by the American Historical Association listing records microfilmed at Alexandria, Va., by the American Historical Association Microfilming Project.

An American Committee for the Study of War Documents was established in 1955 as a private group of scholars interested in documentary research and especially in the microfilming of records of foreign origin kept in American depositories. In 1956, the American Committee became a committee of the American Historical Association. Its present chairman is Professor Oron J. Hale, University of Virginia, who was preceded by Dean Reginald H. Phelps, Harvard University, and Professor Lynn M. Case, The University of Pennsylvania. An initial Ford Foundation grant and additional funds provided by the Old Dominion Foundation, the Lilly Endowment and the Avalon Foundation enabled the Committee to undertake the cataloguing and microfilming of declassified German records in the custody of the World War II Records Division of the National Archives (previously TAGO, Departmental Records Branch), at Alexandria, Virginia.

The plans for screening and microfilming these materials were prepared by a Subcommittee on Microfilming under the chairmanship to the end of 1956 of Professor E. Malcolm Carroll, Duke University, and his successor, Dr. Fritz T. Epstein, The Library of Congress. The microfilming team in Alexandria, Virginia, was under the direction of Professor Gerhard L. Weinberg of the University of Michigan in 1956/57, of Dr. Dagmar Horna Perman from 1957 to September 1959, of Mr. James G. McDowell from September 1959 to August 1960, and is now under the supervision of Dr. Willard Allen Fletcher of the University of Colorado.

The American Historical Association expresses its appreciation for the cooperation given to its Committee for the Study of War Documents by the staff of the National Archives, especially its World War II Records Division, and by the U.S. Department of the Army.

P R E F A C E

This Guide is one of a series of finding aids describing those declassified German records deposited at the World War II Records Division, National Archives, which have been microfilmed by the Microfilming Project of the Committee for the Study of War Documents of the American Historical Association. The Guide contains the text of data sheets identifying records filmed. A copy of the data sheets has been filmed as a target sheet at the beginning of each roll of film.

The present Guide covers forty-eight rolls of film of records of the National Socialist German Labor Party. The material described in the Guide is composed of a considerable variety of documentation, attesting to the manifold activities of the NSDAP and its affiliated organizations. The bulk of the files pertain to intra-party affairs on the national, regional and local levels and concerns political indoctrination, NSFO training, propaganda operations, Jewish persecution, foreign labor recruitment, and a host of other matters. The documentation is rather uneven and the researcher is reminded that very considerable additional NSDAP material is described in Guides 3 and 20.

The terms "Serial" and "Roll" in this Guide refer to the sequence of the film. The "Item" number is the identification symbol on the original folder within the captured records collection. "Provenance" indicates, where ascertainable, the archival origin of the documents whose description follows. The symbol "FT" means that the folder has been filmed throughout, the symbol "FS" denotes that the folder has been filmed selectively. "1st frame" gives the frame number of the first page of the folder. Every exposure has been given a frame number consecutively throughout the filming operation. German file numbers, whenever ascertainable, have also been included. The "Notes" provide a general idea of the nature of the materials but should not be taken as exhaustive descriptions. The researcher is urged to check the entire Guide.

The original records have been returned to the Federal Republic of Germany. The microfilms are deposited in the National Archives, Washington 25, D.C., as microcopy T-81, rolls 638-685, and should be requested by adding "T-81" Part III to the rolls desired. The descriptions were prepared by Dr. Helen Liebel and Dr. Miriam Haskett.

Price List for Records of the National Socialist German Labor Party (Part III)

National Archives Microcopy No. T-81, Rolls 638-685

Microfilm copies of one or more rolls of the microfilm may be purchased at the prices listed below. The prices are based on a charge of 8 cents for each foot of microfilm, with all prices rounded off to the nearest dollar. A 10-percent discount is given on orders for more than \$1,000 and a 15-percent discount is given on orders for more than \$3,000.

Rolls containing privileged material are designated by the symbol R before the roll number. They are not available for sale and are therefore not included in this list.

Checks or money orders for microfilm should accompany the order. They should be made payable to the General Services Administration (NCSE) and should be sent to the National Archives, Washington 25, D.C. Persons ordering microfilm from outside the United States or its possessions should make their remittance by international money order or check drawn in United States dollars on a bank in the United States and payable to the General Services Administration (NCSE). Each order should specify the microcopy number (T-81), the roll number or numbers, and the price.
