THE AMERICAN HISTORICAL ASSOCIATION (AHA)
COMMITTEE FOR THE STUDY OF WAR DOCUMENTS

GUIDES TO GERMAN RECORDS MICROFILMED AT ALEXANDRIA, VA.

The present guide is the first part of several similar publications to be issued by the American Historical Association's Committee for the Study of War Documents. It is the first index of materials microfilmed under the auspices of the American Historical Association. A previous publication, prepared by Ernst Schwandt, Index of Microfilmed Records of the German Foreign Ministry and the Reich's Chancellery covering the Weimar Period, deposited at the National Archives, (1958, 95 p.), covers records microfilmed by the American, British, and French Governments in the preparation of the series Documents on German Foreign Policy 1918-1945.

An American Committee for the Study of the War Documents was established in 1955 as a private group of scholars interested in documentary research and especially in the microfilming of records of foreign origin kept in American depositories. In 1956 the American Committee became a committee of the American Historical Association. Its present Chairman (1958) is Professor Oron J. Hale, University of Virginia, who was preceded by Dean Reginald H. Phelps, Harvard University, and Professor Lynn M. Case of the University of Pennsylvania. An initial Ford Foundation grant and additional funds provided by the Old Dominion Foundation enabled the Committee to undertake the cataloguing and microfilming of declassified German records in the custody of the Adjutant General's Departmental Records Branch (now the War Records Division II, National Archives, previously Military Records Branch, Federal Records Center, Region 3, General Services Administration) at Alexandria, Virginia.

The plans for screening and microfilming of these materials were prepared by a Subcommittee on Microfilming under the Chairmanship to the end of 1956 of Professor E. Malcolm Carroll, Duke University, and his successor Dr. Fritz T. Epstein, The Library of Congress. Professor Gerhard L. Weinberg of the University of Kentucky directed the microfilming team in Alexandria in 1956/7 which is now under the supervision of Dr. Dagmar Horna Perman.

The present guide is a collection of descriptions of record groups filmed by the Microfilming Project of the AHA Committee. Because the project is not yet completed, this guide will appear in installments.

The American Historical Association expresses its appreciation for the cooperation given to its Committee for the Study of War Documents by the staffs of the War Records Division II, the National Archives and the U.S. Department of the Army.

Washington, D.C., May 1958.

Dr. Boyd C. Shafer
Executive Secretary, AHA

PREFACE

This Guide is one of a series of finding aids describing those declassified seized German records deposited at the Military Records Branch, Federal Records Center, Region 3, General Services Administration, that have been microfilmed by the Microfilming Project of the American Committee for the Study of War Documents (now the Committee for the Study of War Documents of the American Historical Association). The Guide contains the text of data sheets identifying records filmed. A copy of the data sheet has been filmed as a target sheet at the beginning of each roll of film.

The Guide covers 20 rolls of film of the records of the Reichskommissar für die Festigung deutschen Volkstums (RKFDV). These rolls cover primarily the records of the Chief Staff Office (Stabshauptamt). Some records of other offices of the Reichskommissar für die Festigung deutschen Volkstums are also included: Kattowitz office, Aussiedlungsstab Kauen (Kaunas, Kowno), Zentralbodenamt. A small amount of material of the Höhere SS-und Polizeiführer Süd (Wehrkreis VII) als Beauftragter des Reichskommissars für die Festigung deutschen Volkstums, Sonderstab Henschel and Getto-Verwaltung Litzmannstadt (Lodz)was also found in this collection.

The terms "Serial" and "Roll" in this Guide refer to the sequence of the film. The "Item" number is the identification symbol on the original folder within the captured records collection. "Provenance" indicates, where ascertainable, the archival origin of the documents whose description follows. The symbol "FT" means that the folder has been filmed throughout, the symbol "FS" denotes that the folder has been filmed selectively. "1st Frame" gives the frame number of the first page of the folder. Every exposure has been given a frame number consecutively throughout the filming operation. The "Notes" provide a general idea of the nature of the materials but should be taken as hints, not complete descriptions. When the German file number could be ascertained, it has been included. The nature of the records filmed makes it necessary for researchers to check the whole guide since no index has been prepared.

The original records of the Reichskommissar für die Festigung deutschen Volkstums are located in the Military Records Branch, Federal Records Center, Region 3, General Services Administration under Record Group No. 1011. The microfilms are deposited in the National Archives, Washington 25, D. C., as microcopy No. T-74 and should be requested by adding to "T-74" the roll numbers.

An interesting group of materials on the fate of the estates of one of the greatest German-owned estates in Poland both before and during World War II. Included is some material on the Oberste Prüfungshof für Volkszugehörigkeitsfragen in den eingegliederten Ostgebieten of which Greifelt, who was later to get the Alvensleben estate, sat as member to rule on the Alvensleben case.
